Constituents ineffective as a spray adjuvant.....	90.0%
<b>TOTAL</b>	<b>100.0%</b>

All ingredients are exempt from tolerance levels in CFR 40, 180,1001.

## KEEP OUT OF REACH OF CHILDREN

## CAUTION

### FIRST AID

If this product gets into the eyes, immediately wash the eyes with large amounts of water for at least 15 minutes. Obtain immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area. Seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek immediate medical attention.

CA Reg. No. 1051080-50005

## GENERAL INFORMATION

As an additive, NEW CENTURY BUFFER is effective where only buffering is a consideration. NEW CENTURY BUFFER lowers the pH of pesticide solutions to a more effective level of acidity for the pesticide. This aids in preventing the decomposition of certain alkaline sensitive pesticides due to hydrolyzation. NEW CENTURY BUFFER is 10% active as a buffer.

## DIRECTIONS FOR USE

NEW CENTURY BUFFER may be used in dilute or concentrate sprays. Use 1 to 2 pints per 100 gallons of spray solution in extremely hard water situations in which the desired pH level of the spray solution is 3 to 4. The use of up to 6 pints of NEW CENTURY BUFFER per 100 gallons of spray solution may be required.
