

BLENDER

Compatibility Agent

GENERAL INFORMATION

BLENDER is formulated to increase liquid fertilizer compatibility with various pesticides including emulsifiable concentrates and wettable powders

DIRECTIONS FOR USE

For the following fertilizer blends, use BLENDER at a rate of 0.25 to 1.0% of the total mix.

24-0-0	10-34-0	28-0-0
11-37-0	7-21-7	8-8-8
32-0-0	8-16-8	8-12-0
5-10-10	20-4-0	

High phosphate fertilizers require the higher percentage concentration of BLENDER in the mix. It may be best to dilute the high phosphate blend water and add this blend to the tank after the BLENDER and the pesticide have already been blended.

High nitrogen fertilizers require the lower percentage concentrate of BLENDER in the mix.

Medium phosphate or phosphate/ potassium solutions require 0.50 to 1.0% BLENDER to total mixture.

Net Contents:
Lot #:

Net Wt:

PRINCIPAL FUNCTIONING AGENTS: Ethoxylated Alcohol Phosphate, N-Butyl Alcohol.....79.0%

Ingredients exempt from requirements of a tolerance under EPA Regulation 180.1001.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Manufactured By:
Custom Ag Formulators, Inc.
P.O. Box 26104, Fresno, CA 93729

STATEMENT OF PRACTICAL TREATMENT

If this product gets into the eyes, immediately wash the eyes with large amounts of water for at least 15 minutes. Obtain immediate medical treatment. If this product gets on the skin, immediately wash the contaminated area. Seek medical attention if skin irritation persists. If this product has been swallowed and the person is conscious, immediately give large volumes of water. Do not induce vomiting. Seek immediate medical attention.

CONDITIONS OF SALE

Follow directions carefully. Timing and methods of application, weather and crop conditions, mixtures with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

PRECAUTIONARY STATEMENTS
