

Drift STOP

Agricultural Drift Control

PRINCIPAL FUNCTIONING AGENT

Acrylamide-sodium acrylate copolymer, petroleum distillates, hydrotreated light naphthenic distillate.....	88.0%
Constituents Ineffective as a Spray Adjuvant.....	12.0%
TOTAL	100%

All ingredients are exempt from tolerance levels in CFR 40, 180,1001.

PRECAUTIONARY STATEMENTS:

WARNING: Hazardous to humans and animals. Causes serious eye irritation. Harmful to aquatic life. May be harmful if swallowed. May be harmful in contact with skin. When mixing or apply agricultural sprays, always wear protective spray goggles and impervious gloves plus protective clothing as recommended on pesticide labels.

PERSONAL PROTECTIVE EQUIPMENT

USER SAFETY RECOMMENDATIONS: Applicators and other handlers must wear long sleeved shirt and long pants, impermeable or chemical resistant gloves, protective eye wear (goggles or face shield), and shoes plus socks. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. User should wash hands before eating, drinking, chewing gum, using tobacco or using toilet. Remove clothing immediately if pesticide gets inside. Wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Weather, crop conditions, timing and methods of applications, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage, or handling of this material not in strict accordance with directions given herewith.

Net Contents: 1 Quart

SPRAY ADDITIVE MIXING DIRECTIONS

IMPORTANT: Always shake the DRIFT-STOP container well before using. Keep DRIFT-STOP from freezing. DRIFT-STOP is highly concentrated and it is important to follow the instructions and rates for use.

DRIFT-STOP should be added to the tank mix before adding water soluble pesticides and after adding emulsifiable concentrate. Add DRIFT-STOP to the tank while agitation is occurring. Add DRIFT-STOP before the addition of other surfactants or adjuvants. Agitate mix tank for at least several minutes after adding DRIFT-STOP to ensure proper mixture. DRIFT-STOP should not be used post emergence with diuron herbicides on cereals. To test compatibility of DRIFT-STOP, prepare a small quantity of the mixture in a jar to determine rate and compatibility.

RECOMMENDED DRIFT-STOP DOSAGE

GROUND APPLICATIONS:

Pressure Nozzle Orientation Dosage (oz/spray solution)	
To 30 psi flat fan, flooding, off center	1-2.5 oz/100 gal
30-50 psi flat fan, flooding, off center	2-2.5 oz/100 gal
20-50 psi cone or "raindrop"	0.5-1 oz/100 gal
30 psi Directa-Spray Roadside Sprayer	2.5-5 oz/100 gal
50-100 psi hand gun	1.5-11 oz/100 gal

AERIAL APPLICATIONS:

Pressure Nozzle Orientation Dosage (oz/spray solution)	
To 45 psi Straight back	2.5-4 oz/100 gal
To 45 psi 45 angle on back position	4-5 oz/100gal

IMPORTANT: DRIFT-STOP will control but not eliminate drift completely. DRIFT-STOP, when used as directed and in accordance with sound agricultural practices, is in compliance with Federal Food and Drug Administration Regulations governing the crop land use of adjuvants in herbicide formulations and is exempt from requirement

KEEP OUT OF REACH OF CHILDREN

WARNING

FIRST AID:

IF IN EYES:-Immediately flush eyes with plenty of water, lifting the eyelids and rinse for 15-20 minutes. Remove contact lenses, if present, then continue rinsing. Call Poison Control Center or doctor for advise. **IF ON SKIN OR HAIR:**-Take off contaminated clothing. Rinse skin immediately with plenty of water for 10-15 minutes. Get medical attention if irritation develops or persists. Wash contaminated clothing before reuse. **IF SWALLOWED:**-Call a poison control center or doctor immediately for treatment advice. Rinse Mouth. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Follow all recommended governmental procedures for disposal of pesticide spray solutions. Rinse container and empty rinsate into spray tank. Dispose of empty container according to approved local practices. Contact county agricultural commissioner for disposal information. Clean DRIFT-STOP from measuring equipment with petroleum solvents or hot water and detergent.

GENERAL INFORMATION

DRIFT-STOP is a drift retardant spray additive which can stabilize pesticide sprays by increasing the droplet size, reducing the drift of spray particles. DRIFT-STOP is non-corrosive and may be mixed with emulsifiable pesticides and water soluble formulation.
