Methods and materials for containment and cleaning up

<i>Large Spills</i>	Clean up spills immediately and dispose of waste safely. Absorb and/or contain spill with inert material, then place in suitable container. Do not take up in combustible material such as: saw dust or cellulosic material. If spilled directly onto the ground, remove sufficient soil to ensure material is fully recovered. Contact competent authorities after a spill.
<i>Small Spills</i>	Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.

Environmental precautions	Prevent entry to sewers and public waters.
