

GENERAL INFORMATION

DRIFT-STOP is a drift retardant spray additive which can stabilize pesticide sprays by increasing the droplet size, reducing the drift of spray particles. DRIFT-STOP is non-corrosive and may be mixed with emulsifiable pesticides and water-soluble formulation

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Follow all recommended governmental procedures for disposal of pesticide spray solutions. Rinse container and empty rinsate into spray tank. Dispose of empty container according to approved local practices. Contact county agricultural commissioner for disposal information. Clean DRIFT-STOP from measuring equipment with petroleum solvents or hot water and detergent.

CONDITIONS OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use. Weather, crop conditions, timing and methods of applications, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage, or handling of this material not in strict accordance with directions given herewith.

Agricultural Drift Control

PRINCIPAL FUNCTIONING AGENT
Acrylamide-sodium acrylate copolymer, petroleum distillates,

IMPORTANT: Always shake the DRIFT-STOP container well before using. Keep DRIFT-STOP from freezing. DRIFT-STOP is highly concentrated, and it is important to follow the instructions and rates for

DRIFT-STOP should be added to the tank mix before adding water soluble pesticides and after adding emulsifiable concentrate. Add DRIFT-STOP to the tank while agitation is occurring. Add DRIFT-STOP before the addition of other surfactants or adjuvants. Agitate mix tank for at least several minutes after adding DRIFT-STOP to ensure proper mixture. DRIFT-STOP should not be used post emergence with diuron herbicides on cereals. To test compatibility of DRIFT-STOP, prepare a small quantity of the mixture in a jar to determine rate and compatibility. RECOMMENDED DRIFT-STOP DOSAGE

GROUND APPLICATIONS

Pressure Nozzle Orientation Dosage (oz/spray solution)
To 30 psi flat fan, flooding, off center
30-50 psi flat fan, flooding, off center
20-50 psi cone or "raindrop"
30 psi Directa-Spray Roadside Sprayer
50-100 psi handgun
AERIAL APPLICATIONS:

Pressure Nozzle Orientation Dosage (oz/spray solution)
To 45 psi Straight back 2.5-4 oz/100 gal
To 45 psi 45 angle on back position 4-5 oz/100 gal
IMPORTANT: DRIFT-STOP will control but not eliminate drift completely.
DRIFT-STOP, when used as directed and in accordance with sound agricultural practices, is in compliance with Federal Food and Drug
Administration Regulations governing the crop land use of adjuvants in herbicide formulations and is exempt from requirement

KEEP OUT OF REACH OF CHILDREN

WARNING

FIRST AID:

IF IN EYES: Immediately flush eyes with plenty of water, lifting the eyelids and rinse for 15-20 minutes. Remove contact lenses, if present, then continue rinsing. If eye irritation persists, get medical attention or call Poison Control Center for advice. IF ON SKIN OR HAIR: Take off contaminated clothing. Rinse skin immediately with plenty of water for 10-15 minutes. Get medical attention if irritation develops or persists. Wash contaminated clothing before reuse. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Rinse Mouth. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person. PRECAUTIONARY STATEMENTS:

WARNING: Hazardous to humans and animals. Causes serious eye irritation. Harmful to aquatic life. May be harmful if swallowed. May be harmful in contact with skin. When mixing or apply agricultural sprays, always wear protective spray goggles and impervious gloves plus protective clothing as recommended on pesticide labels. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco products.

PERSONAL PROTECTIVE EQUIPMENT

USER SAFETY RECOMMENDATIONS: Applicators and other handlers must wear long sleeved shirt and long pants, impermeable or chemical resistant gloves, protective eye wear (goggles or face shield), and shoes plus socks. Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. User should wash hands before eating, drinking, chewing gum, using tobacco, or using toilet. Remove clothing immediately if pesticide gets inside. Wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
