GENERAL INFORMATION

Sorbi-Crop CAL MAG is formulated with Mannitol for increased uptake in foliar applications.

Sorbi-Crop CAL MAG is designed for field, vegetable, row, fruit, tree, vine, ornamental and turf crops.

Sorbi-Crop CAL MAG may be applied through drip systems, aircraft, or via ground sprayers (high-volume or low-volume).

Sorbi-Crop CAL MAG may be applied alone or with fertilizers or pesticides. It can be applied either to the plant foliage or to the soil.

Sorbi-Crop CAL MAG is compatible with most pesticides and fertilizers. However, a compatibility test is recommended if the desired combination has not been used in the past.

CAUTION: Avoid co-application with phosphate-containing fertilizer solutions or highly alkaline fertilizer solutions.

CONDITIONS OF SALE

The statements made on this label are believed to be true and accurate, but because of conditions of use which are beyond our control, the manufacturer does not make nor does it authorize any agent or representative to make any warranty or representation, expressed or implied, concerning this material or the use thereof except in conformity with the statements on the label. The buyer assumes all risk and liability resulting from improper handling, storage or use and accepts and uses this material on these conditions. If these conditions are unacceptable to the buyer, he should immediately return the unopened product to the seller.

DIRECTIONS

Add Sorbi-Crop product to tank after adding other tank mix products. Fill tank 1/3 - 1/2 full. Add pesticides, adjuvants, and other tank mix products. Add Sorbi-Crop product at recommended rate. Continue filling tank with water until full and agitate while filling until product is thoroughly mixed.

Foliar Application:

Apply 1 to 2 quarts/ acre as needed on a 10 - 14 day schedule.

Avoid foliar applications when plants are under stress due to lack of moisture.

Turf Application:

For greens and tees: apply 2-4 fl oz. per 1,000 sq.ft

For sod and overseeding:: apply 2 fl. oz per 1000 sq. ft

For sports fields and fairway applications: Apply 2-5 fl oz per 1000 sq.ft

Aerial Application:

Apply 1 quart per gallon of this product in 5 to 10 gallons of water per acre.

Drip Irrigation Application: Apply the suggested rate of this product in multiple applications 10 - 14 days apart throughout the growing season of the crop.
