

GENERAL INFORMATION

THE CLOSER is a proprietary formulation utilized as a plant flush solution to aid in removing excess fertilizer salts and unwanted excess organic and inorganic materials from the growing media and all components of the growing system.

THE CLOSER is safe to use with all growing systems and is safe to use during the plant growing cycle.

Information regarding the contents and levels of metals in this product is available by calling 800-355-4457

RATES FOR USE
Use 2mL per Liter. Use during the final 4 to 10 days before harvest. Add THE CLOSER to the water supply and circulate continuously for 6-8 hours. Upon completion, drain the reservoir and run clean water through system.

CAUTION:
KEEP OUT OF REACH OF CHILDREN
