GENERAL INFORMATION

ON-TRACK is a highly active ammonium sulfate solution and a highly available form of N and P. The superior quality spray grade of ammonium sulfate reduces cold water sedimentation and nozzle plugging commonly found with dry ammonium sulfate products. This product can be tank mixed with most fertilizer and pesticide applications, including but not limited to herbicides, fungicides, insecticides, miticides, and growth regulators. If the tank mix combination has not been previously combined, a simple jar test determine compatibility.
